experience

2017-ongoing Freelancer Architect & Interdisciplinary Designer Turkey.

2015-2017 Project Coordinator at Aymaz Architecture Turkey. Managed from small to large-scale projects, formed relationships and coordinating design decisions with consultants, engineers and contractors. Worked in both Autodesk AutoCAD and Autodesk Revit across retail, residential and mixed-use projects especially healthcare structures. Designed across all phases, from conceptual design through to construction documentation and bidding. Participated in all phases of the design and construction processes on six major projects nationally and internationally such as Algeria and Iraq. Also had successfully taken on many roles, gaining experience in project marketing, firm branding and the orientation of new employees.

2014-2015 Architectural Designer at Boyut Architecture Turkey. Worked primarily in the design development phase of several design and competition projects. Drafted various design drawings and made subsequent adjustments based on feedbacks of stakeholders or chief architectural designer. Created 3D models, renderings and video animations. Also helped to create a standardized library of detail drawings.
